PHOENIX SKYE

Model, cosplayer, gamer, and CEO

So you're into video games! How long have you been gaming?

I've been gaming since I was 8 years old actually. I had every PlayStation since PS1, I had a game gear and played Sonic the Hedgehog on it. Once I got home from school and finished my school work and chores I would play games for hours after and I swear nothings changed haha

What are some of your favorite video games if all time?

All the Tomb Raiders will always be my favorites. She's just so badass I'm obsessed with her. Even cosplayed her a few times at conventions (when they were open of course) I also loved God of War and Final Fantasy!

You're also into cosplay! How long have you been cosplaying and what is your favorite cosplay that you've done?

My favorite by far would Domino from Deadpool. I dressed up as her at my very first convention and it was such a hit! That's when I realized I could basically celebrate Halloween all year long and it's called *cosplay*. I've dressed up at Poison Ivy and that was a lot of fun too. Oh! I even did Sally from Nightmare Before Christmas and she was a big hit too.

What are some characters that you haven't cosplayed as yet that you really want to do?

I really want to do more body paint ones. Maybe one of the Avatar characters with the cool blue paint all over me. I also really loved Cheetah Girl from Wonder Woman. I just know these would take all day to paint on me haha so I have yet to even actually plan any of them. But hey maybe, this is the year!

How long have you been modeling for?

Been modeling for pretty much my entire life. Took some years off to work at this law firm and thought I wanted to be a lawyer but quickly decided that wasn't my path. Got back into it a few years ago and haven't looked back since!

You have your own brand, P.S I Love You too! Can you tell us what it means and what made you want to start a clothing business?

Of course! P.S. are my initials Phoenix Skye and a few years ago I actually decided to get a domain name before I even knew what I wanted to create. Then during quarantine I just said fuck it and started a clothing line. Right now it's street wear and I just launched the swim line last month. I have so many ideas for it and I'm just getting started! It's a lot of work but luckily I love it and believe in myself enough to know that if I just keep up with it then it'll succeed.

What's next for the amazing Phoenix Skye? Any big plans?

Haha the goal is to get ***psiloveyou*** thriving! And to get my gaming career in full bloom. I'd love to figure out some sort of game channel show for Dark Phoenix and get that on a streaming platform. So many ideas and plans in the works!

When the pandemic is over, what is the FIRST thing that you want to do?

Honestly I'd love to just travel someplace fun! Girl even Hawaii would be amazing. At this point any place other than LA would be a vacation haha

You're a Harry Potter lover! First, what is your house, and if you could date any Harry Potter character, who would it be and why??

Don't get me started on this conversation haha there aren't enough hours in the day for it! But I am Slytherin house (of course) so I decorated my game room and even parts of my house with tons Wizarding World trinkets and it's like my dream house! And hmmm Let's see I think I'd actually date Malfoy haha I feel like If he had me as a girlfriend he wouldn't have been such a mean kid! I could have tamed him and we'd even have such a cute little family!

What is something people might be surprised to know about you?

I'm actually more of a loner than a people person. I used to go to the movies by myself all the time and it was pretty much the best time of my life. I really miss those days!
